Project Development:	0	0
Ongoing Operating:	0	0
One-Time Startup:	0	
Totals:	0	0

Additional Information / Prior Funding History:

None.

Project Description/Justification:

Proper preventive maintenance on state owned buildings can avoid costly deferred maintenance in the long term. An automated program that inventories buildings and their mechanical components, identifies and schedules preventive maintenance activities, and reports to management on facilities' conditions is key to efficient airport management. This project will allow the airport to implement the use of Maximo as it is being used in the regional facility offices.
