None.

Project Description/Justification:

The City of False Pass has received funding for a new landfill to replace the existing one that is over-capacity and a safety hazard. These funds are available for use until 10/4/2006. An access road is needed to provide a surface connection to the new landfill. Preliminary design (60%) and an Environmental Report have been completed by the City. The City has agreed to incur additional harbor construction (COE 2005-06 Project) costs to bring dredged materials on shore (rather than off-shore dumping) for use in the landfill access road.
