**Additional Information / Prior Funding History:**

FY2005 - \$3,531,250.

**Project Description/Justification:**

The first stage of the project leveled the runway and improved the runway surface and constructed apron and safety area silt embankments. This project is required to finish the airport rehabilitation project. Surfacing material is needed on the embankments that were placed during the first stage of the project. This includes portions of the runway as well as the taxiway and apron. Emmonak is an important postal hub which has experienced increased cargo traffic creating serious congestion on the apron.
