**Project Description/Justification:**

The purpose of this program is to provide gap funding to increase home ownership throughout the state. This program is designed to help retain desirable professionals in high-cost areas. To date 38 units have been developed for teacher housing under this program.

The projected outcomes are:

- Increasing home ownership;
- Adding 20 units for Teacher, Health Professionals, or Public Safety housing;
- Increasing affordability for housing purchases by low- to moderate-income families;
- Lowering interest rates on AHFC mortgage programs to attract loan volume and generate net income; and
- Participate in a statewide housing conference.

**Program Description:**

The primary purpose of this program is to provide a source of grant funds that will help pay for the development of decent, safe, and affordable rental housing for teacher, health professionals, and public safety officials. This program has and will continue to generate additional loan volume for AHFC.

Attracting and maintaining a pool of qualified teachers, health professionals, and public safety professionals in rural Alaska is a goal of the State of Alaska. In order to achieve this, housing must be available, affordable, and of a quality that encourages these professionals to locate or stay in rural settings. These programs were developed to respond to the need for additional

housing for professionals and their families by providing grants to fill the funding gap for various housing projects. Funding is made available through a competitive process for new construction, rehabilitation, acquisition of rental, or lease/purchase housing.

The Corporation - based on loan demand, interest rate fluctuations, and market conditions - may change rate reductions and certain eligibility criteria.

The Corporation may contribute funds toward sponsoring a statewide housing conference to bring together all aspects of the housing industry. AHFC expects other entities and agencies to also contribute toward this event.
