**Brief Summary and Statement of Need:**
This is a new FY2007 Capital Budget Request. Provide funding for Glenn Highway - Hiland and Artillery Interchange Improvements (signal and turning lanes at Hiland) and $2 million to start preliminary engineering for the reconstruction of the Hiland and Artillery Interchanges. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

**Additional Information / Prior Funding History:**
None.

**Project Description/Justification:**
Project will design and construct a signal and turning lanes at Hiland Road as interim improvements to address existing congestion and will provide preliminary engineering for the reconstruction of the Hiland and Artillery Interchanges. Anchorage-bound traffic from Eagle River currently experiences substantial delays as they try to access the Glenn Highway via the Hiland Road Interchange, with traffic often backing up Eagle River Loop Road toward Eagle River Road during the morning commute. This interim improvement will construct an additional left-turn lane for Anchorage-bound left turns, and install a traffic signal on the bridge to enable left turns for traffic entering the interchange from the north. Project will also begin the preliminary engineering for the ultimate reconstruction of both the Hiland Road and Artillery Road Interchanges.
