**Project Description/Justification:**

Funding is requested for a roof replacement completion - final phase of the project for the State Museum building in Juneau. In FY07-08 all but one remaining phase of the Alaska State Museum's roof was replaced. This funding request is for the final roof replacement phase for this facility. This area of the facility continues to have multiple roof leaks, causing water infiltration to the occupants and potential damaged to irreplaceable artifacts. Wet conditions, if not actively identified and handled, can also lead to environmental health hazards (mold).
