Project Description:

Legislative Grant money would be used for a combination of the following in the classrooms at Goldenview with the following price estimates per room:

- 1)For classrooms that currently have the multimedia equipment but no permanent mounting system, a “ceiling tile” mounting system, and the labor to run data/video lines and provide appropriate electrical outlets. \$2500.
- 2)For classrooms that currently lack equipment or installation, a projector, a SmartBoard, and the same installation as above. \$5500.
- 3)Once a critical number of classrooms were equipped as above we will move to add better audio systems to rooms. \$500.

Attached is a “scope of work” item that was prepared for a school with very similar construction as Goldenview. The same vendor has viewed our school, and is preparing a similar plan for us. That scope would be used to find the best vendor to perform the work. Note that the proposal for Eagle River High School does not include electrical work needed at Goldenview; our proposal is similar in the main part of the work but adds a few items.
