Project Description:

12-Passenger bus - specifically a Tesco Goshen Coach GCII, eight-passenger plus four wheelchair bus, with two foldaway entries and a wheelchair lift in the rear. The bus would primarily be used for the Wrangell Medical Center's long-term care resident use. Their current van is a 1994 Dodge and holds only two wheelchairs and four passengers, which limits the number of residents who can participate in their daily activities program. Due to heavy use over the past 13 years, the van also leaks into the interior.
