Detailed Project Description and Justification:

Approximately 480 students take art classes at Abbott Loop Elementary as part of the required ASD curriculum. The kiln used in the art program is outdated and a newer, safer kiln will enable ceramics to be fired and the art program to meet ASD's art curriculum goals.

In addition to a safer and more efficient kiln, the appropriation will be used to purchase and install drying racks, a slab roller, poster storage and display boxes and a new press. Without the slab roller, students are limited to hand-built projects and without the press options for displaying student art are limited.

This appropriation will enable art teachers at Abbott Loop Elementary to fulfill ASD curriculum and improve the educational experience of approximately 480 student.
