

**Electrical Emergencies Program****FY2008 Request: \$80,400**  
**Reference No: 32590****AP/AL:** Appropriation  
**Category:** Development  
**Location:** Statewide  
**House District:** Statewide (HD 1-40)  
**Estimated Project Dates:** 07/01/2007 - 06/30/2012**Project Type:** Renovation and Remodeling  
**Contact:** Ron Miller  
**Contact Phone:** (907)269-3000**Brief Summary and Statement of Need:**

To provide the balance of funding needed for technical support when an electric utility has lost, or will lose, the ability to generate or transmit power to its customers and the condition is a threat to life, health, and/or property in the rural community. Historically, an average of \$330.0 annually has been needed to provide for electrical emergencies from a combination of loan funds and general funds. This program contributes to the Department's mission of promoting a healthy economy and strong communities by providing economic growth in the communities it serves.

**Additional Information / Prior Funding History:**

Refer to the funding matrix in the detailed description.

**Project Description/Justification:**

The Electrical Emergencies Program provides funds and technical support when an electric utility has lost, or will lose, the ability to generate or transmit power to its customers and the condition is a threat to life, health, and property in the community. Emergencies of this type result in the loss of communications, lights, refrigeration systems, washeterias, water and sewer systems, and the use of other basic infrastructure and equipment. Extended power outages can be costly and hazardous during winter months. Water and sewer systems are subject to freezing and bursting, fire hazards increase, medical clinics and other public facilities may close, and public safety can be compromised. The emergencies involve both power plant failures and/or distribution system failures.
