

State of Alaska FY2009 Governor's Operating Budget

Department of Commerce, Community, and Economic Development Alaska Energy Authority Technical Assistance Component Budget Summary

Component: Alaska Energy Authority Technical Assistance

Contribution to Department's Mission

Increase the reliability and efficiency of rural electric systems.

Core Services

The Technical Assistance Program offers preventive maintenance services, on-site operator training, and emergency response to rural electric utilities, specifically the smaller utilities that have difficulty acquiring and maintaining the necessary technical skills. Annually, AEA is able to provide technical assistance to a fraction of the 100 communities requesting this assistance.

A technical assistance visit includes inspection, testing, and preventive maintenance of the diesel engines, generators, control panels, metering systems and other related components. The technician is assisted by the local plant operators, who acquire training and skills in the process.

Major Activities to Advance Strategies

- On site operator training
- Provide preventative maintenance services
- Development of site-specific training curriculum

FY2009 Resources Allocated to Achieve Results

FY2009 Component Budget: \$100,700	Personnel:	
	Full time	0
	Part time	0
	Total	0

Key Component Challenges

The construction of substantial infrastructure projects in the villages (for example: water/sewer facilities and school upgrades and replacements) are over-taxing the older power systems which results in system overload, shorter equipment life and more frequent power outages. Reduced funding for the Technical Assistance Program over the past few years limits our ability to provide technical assistance, operator training and minor repairs to reduce power outages and significant equipment damage.

Significant Changes in Results to be Delivered in FY2009

No significant changes.

Major Component Accomplishments in 2007

AEA provided circuit rider services to 18 communities. Emergency response to 23 communities.

Statutory and Regulatory Authority

AS 42.45 Rural and Statewide Energy Programs
