### Key Component Challenges

The federal Center for Medicare and Medicaid Services (CMS) is reviewing School-Based Medicaid Administrative claiming across America. Changes to this program could negatively impact service delivery.

### Significant Changes in Results to be Delivered in FY2009

There are no new changes proposed in FY09.

### Major Component Accomplishments in 2007

- The Department of Health and Social Services (DHSS) hired a contractor in 2006 to electronically survey Alaska's school districts, collect and compile the cost pool information through DHSS, and calculate the claim for submission to DHSS. The on-line survey has training instructions built in that serve to refresh the face-to-face training given to participants by the DHSS Coordinator and the School District On-Site Coordinators. This program has been very successful.
- Currently 43 school districts in Alaska have signed agreements with DHSS to participate in Medicaid School-Based Claiming. This represents over 95% of all school age children in Alaska.
