Additional Information / Prior Funding History:

Project Description/Justification:

Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users authorizes federal assistance for highways and transit for five years: 2005 through 2009. Among its many provisions are specific listings for numerous projects. Each listing, commonly referred to as an earmark, requires state administration and oversight so that funding can be made available for the purposes that led to the project listing in the federal law. This appropriation is needed so that the funding can be obligated and made available for the requested purpose.
