Project Description/Justification:

This project will address a variety of issues including resurfacing deteriorated pavement, paving existing gravel, improved gravel resurfacing, drainage improvements and new design standards on a number of local roads located throughout the Kenai Peninsula. These improvements are critical as development and population has grown rapidly but most of these roads have not seen any improvements in the past 20-30 years. This will improve the safety of these facilities and eliminate health concerns related to dust. This is a new project and will provide design and construction funding for projects nominated by the Kenai Peninsula Borough.
