**Brief Summary and Statement of Need:**

In FY05, UAF was appropriated receipt authority up to \$80 million for National Science Foundation funding to purchase a new research vessel. The National Science Foundation funding became available in the fall of 2007 and has increased to accommodate inflation and changes in scope of work over the past few years. Additional receipt authority is needed to accept the National Science Foundation funding and the new research vessel.

**Additional Information / Prior Funding History:**

Alaska Regional Research Vessel (SLA 2004, Chapter 159, \$80M, Federal Receipt Authority).

**Project Description/Justification:**

The National Science Foundation awarded the contract for the construction and operation of the Alaska Regional Research Vessel to the University of Alaska. This award was anticipated in 2004, however, at that time construction of the vessel was estimated at \$80 million. Given the five years it has taken for the National Science Foundation to receive funds, and further specifics for the ship, the total award is estimated at \$125 million. This is for an increase of \$45 million in Federal Receipt authority.
