

Platinum K-12 School Prime Power Generators

FY2010 Request: \$181,678

Reference No: AMD 47862

AP/AL: Allocation

Category: Education

Location: Platinum

House District: Bethel (HD 38)

Estimated Project Dates: 07/01/2009 - 06/30/2014

Appropriation: Major Maintenance Grant Fund (AS 14.11.007)

Project Type: Renewal and Replacement

Recipient: Lower Kuskokwim School District

Contact: Eddy Jeans

Contact Phone: (907)465-8679

Brief Summary and Statement of Need:

Major Maintenance Grant Fund - Project #14: Platinum K-12 School Prime Power Generators. This project will convert the school facility from community power to prime power. The current Voc Ed Shop will be converted to house the new school power plant; shop equipment will be relocated, and minor structural upgrades will be made to the floor system in the building prior to installing the new generators. A 4,000 gallon double wall fuel tank will be installed in addition to two new utility poles.

Additional Information / Prior Funding History:

Currently, electrical power for Platinum School is supplied by the old Platinum Mine generator. This generator has become extremely unreliable and the school district is worried that it will fail and they will be left without power and forced to close the school. This project will enable the school district to self-generate their primary power supply.
