Additional Information / Prior Funding History:

None.

Project Description/Justification:

The Mayor of Hoonah says this is the community's top priority for infrastructure projects. The degraded condition of Hoonah's Airport Road has resulted in controllability issues, with extremely poor conditions in front of the post office. Department maintenance crews have had difficulty staying on top of patching, and freeze-thaw cycles regularly generate new potholes and other degradations. The International Roughness Index ranges from 109-178 (95-170 is considered fair, with anything over 170 considered poor). Rutting is extreme, with 1/2 inch ruts along at least 1/2 the length of the road.

This project meets the prioritization criteria of serving an economically distressed area. Advertising of this project is estimated to take place in July, 2009.
