**Project Description/Justification:**

There is a new federal mandate to ensure the retro-reflectivity of all signs are assessed, inventoried, and replaced as needed. By January 2012, a sign assessment or management system has to be in place to track sign data and ensure timely sign replacement. By January 2015, all ground-mounted regulatory, warning and guide signs must comply with retro-reflectivity requirements and by January 2018, all overhead and street name signs must be compliant.

This project meets the prioritization criteria of safety and can begin in 2009. Advertising of this project is estimated to take place in Spring/Summer 2009.
