

AP/AL: Allocation **Project Type:** Research / Studies / Planning
Category: Transportation
Location: Statewide **Contact:** Christine Klein
House District: Statewide (HD 1-40) **Contact Phone:** (907)269-0724
Estimated Project Dates: 07/01/2009 - 06/30/2014
Appropriation: Airport Improvement Program

Brief Summary and Statement of Need:

This is an Alaska International Airports System project to review the system airports' facilities, resources, operations and develop a plan for sharing of these assets to maximize aircraft operations within the system. This study is needed to determine the best way to utilize both the Ted Stevens Anchorage International Airport (ANC) and Fairbanks International Airport (FAI) to accommodate air traffic. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

Additional Information / Prior Funding History:

None.

Project Description/Justification:

Review the Alaska International Airports System (AIAS) airports' (ANC and FAI) facilities, resources, operations, and develop a plan for sharing of these assets to maximize aircraft operations within the system. During the last ANC Master Planning effort, concern was raised about expansion of the ANC Airport to accommodate projections of increased air traffic without fully utilizing capacity at FAI. This study is needed to investigate that possibility and help guide future master planning efforts at ANC and FAI.
