**Estimated Project Dates:** 07/01/2009 - 06/30/2014

**Appropriation:** Airport Improvement Program

**Brief Summary and Statement of Need:**

This project is the result of a Federal Aviation Administration (FAA) directive to identify access control measures to reduce deviations and incursions at Fairbanks International Airport (FAI), i.e., fencing, gates, and improved signage. FAI ranks among the top 20 of 400 certified airports in incursions and deviations. Every effort will be made to implement the least costly and restrictive measures that accomplish the objective of reducing incursions and deviations. This project contributes to the Department's Mission by improving the mobility of people and goods and by reducing injuries, fatalities and property damage.
