Anchorage - Kincaid Elementary Technology Upgrades

State Funding Requested: \$20,000**House District: 22 / K**

One-Time Need

Brief Project Description:

Purchase equipment for technology upgrades in classrooms.

Funding Plan:**Total Cost of Project: \$20,000***There is no other funding needed**Explanation of Other Funds:**The PTA has committed financially by providing UAA technology training for the staff at Kincaid school.***Detailed Project Description and Justification:**

The staff at Kincaid has made a significant commitment to technology training over the past year to better meet the needs of our students. (Our PTA has also committed financially to provide a UAA technology course for our staff.) We have incorporated not only lesson techniques that meet the majority of our students but also intervention strategies to assist our struggling students. With 24 classrooms and limited amounts of the needed technology tools such as interactive white boards and software licenses, providing adequate access to students and teachers is difficult if not impossible. This grant will help us meet our technology needs
