Island Trails Network - Construction of Trail along Perenosa Drive Right-Of-Way

State Funding Requested: \$7,000**House District: 36 / R**

One-Time Need

Brief Project Description:

Construction of 800 linear feet of hiking trail connecting Katmai Drive to Kodiak Christian School campus.

Funding Plan:**Total Cost of Project: \$7,000***There is no other funding needed***Detailed Project Description and Justification:**

This project proposes the construction on an improved trail that links residents of Katmai Drive and adjacent subdivisions to the Rezanof Drive multi-use path and the parks, schools and community assets it connects via the Perenosa Drive right-of-way.

Parts of the Perenosa Drive right-of-way were platted but never fully developed as a street. With recent high-density development in the Woodland Acres subdivision, this trail has become an important neighborhood connection and seen increased use. The improvement of the parcel immediately to the west of the right-of-way by the Kodiak Christian School brought the future of the public right-of-way into sharp focus.

After several community meetings among local stakeholders, the Kodiak Christian School and the Kodiak Island Borough Planning & Zoning Commission the future of this right-of-way was secured. This project is intended to improve the trail to meet current use patterns and ensure a sustainable tread surface of D-1 aggregate.

Island Trails Network proposes this trail with the support of the Kodiak Christian School and the Kodiak Island Borough.

Project Timeline:

August 1, 2010 - materials purchased (D-1 aggregate), construction begins

August 15, 2010 - trail construction complete

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

maintenance

Grant Recipient Contact Information:

Name:	Island Trails Network
Address:	PO Box 301 Kodiak, AK 99615
Phone Number:	(907)539-1979
Email:	info@islandtrails.org

Has this project been through a public review process at the local level and is it a community priority? Yes No
