# Houston - Tanker and Equipment

**State Funding Requested: \$425,000****House District: 15 / H**

One-Time Need

**Brief Project Description:**

Funds requested for the purchase of a fire tender to supplement the current demand for fire services in Houston and surrounding areas.

**Funding Plan:**

Total Project Cost:	\$425,000
Funding Already Secured:	(\$0)
FY2012 State Funding Request:	<u>(\$425,000)</u>
Project Deficit:	\$0

**Detailed Project Description and Justification:**

Tanker 9-1-1 has been the workhorse of Houston Fire Department for 15 years responding to local calls and mutual aid fires, with the frequency and duration of the calls increasing. This request is for the purchase and equipping of a new 3,000 gallon tender to extend the additional services expected of the Houston Fire Department to our community and those mutual aid agencies. Bringing a new tender on-line will also positively impact our ISO ratings of Houston, Willow, and West Lakes fire departments. Houston currently has only one tender and when that tender is committed to a call outside of Houston, the available resources are not readily capable to initiate a proper fire response inside of Houston.

**Project Timeline:**

Upon full funding, the tender will be spec'd and ordered within 5 months of award, and placed in service within 1 months of delivery to Houston.

**Entity Responsible for the Ongoing Operation and Maintenance of this Project:**

City of Houston

**Grant Recipient Contact Information:**

Name:	Michelle DeLong
Title:	City Clerk
Address:	13965 W. Armstrong Road Houston, Alaska 99694
Phone Number:	(907)892-6869
Email:	mdelong@houston-ak.gov

Has this project been through a public review process at the local level and is it a community priority?  Yes  No

## Office of the Fire Chief

FAX: 907-892-6458  
FIRE@HOUSTON-AK.GOV

Mr. Mayor and Members of the City Council:

This letter is by request of your body for the list of items we are requesting be added to the Capital Improvement Programs (CIP) list for FY2010. The following capital expenditures are outside the ability of the Houston Fire Department's budget to pay for, and as such we respectfully request that you add these to the CIP list submitted to the State of Alaska this year. All items are in order of importance and need for our department.

1. Self-Contained Breathing Apparatus (\$140,000)
  - a. We need 20 new sets of Self-Contained Breathing Apparatus (SCBA) in order to perform our mission of saving lives and property in a safe and efficient manner. New SCBAs can range in cost from \$5,000 - \$10,000, with the SCBAs that we request costing approximately \$7,000 each. 20 of these would therefore cost approximately \$140,000. This specific SCBA would allow us to perform all of our tasks with maximum efficiency and meet the same gear specifications of our mutual aid partners at the Mat-Su Borough. The gear would be MSA® M7 air packs with either 2216 psig or 4500psig bottles.
2. Fire Tender (\$400,000)
  - a. Tanker 9-1-1 has been the workhorse of Houston Fire Department for over a decade due to increasing demands of response to mutual aid fires as well as local emergencies. Sometimes, the tanker is outside the service area assisting a mutual aid agency and another emergency occurs within the city of Houston that must be covered by Engine 9-1-1 and a mutual aid station providing a tender to support the operation. The addition of a new tender would alleviate the overworking of the current Tanker 9-1-1 and allow us to provide assistance to mutual aid stations without decreasing response capabilities within the City of Houston. A fire tender as we would require for continuation of our existing service capabilities would cost in the area of \$400,000 to include stocking the tender with equipment and tools to meet National Fire Protection Agency (NFPA) and Insurance Services Office (ISO) requirements.

3. Fire Engine

- a. With the addition of Station 9-2 and the increasing call for Rapid Intervention Crews (RIC) in the fire service by OSHA, as well as NFPA and ISO, a new Engine is needed to full service of the mission of Houston Fire Department. We request funding in the amount of \$450,000 to purchase a structural fire engine and fully equip it for that same purpose, meet all NFPA and ISO requirements, and provide for sufficient space for future expansion and refitting as necessary. The current Engine 9-1-1 would continue service as the primary engine for Station 9-1 and a RIC engine, which would dramatically increase our safety position in our department and with the mutual aid fire services as well.

4. Personal Protective Equipment (PPE)

- a. Many firefighters currently are wearing PPE that was purchase in excess of 7 years ago, which is the maximum age mandated by NFPA. Continuing to clothe firefighters in this gear could be dangerous and any failure would not be warranted against by the manufacturer. This PPE, also referred to as turnouts, cost in the area of \$2,000 each. With an objective of a 20-firefighter strong fire department, we need to purchase 20 sets of turnouts of varying sizes with a total cost of approximately \$40,000.

5. Rescue Truck

- a. We request \$350,000 for a medium rescue truck and associated tools. This truck would replace the currently Rescue 9-1, a 1983 Chevy pickup that was configured as a brush truck and placed into service as a rescue truck due to no other available rescue vehicle. As a result, the current Rescue 9-1 is overweighted and well beyond its service life. The purchase of a new rescue truck would permit us to place the current Rescue 9-1 back into service as a brush truck and better protect and serve the residents and commuting traffic of Houston.

Respectfully Submitted,

---

Thomas L Hood, Fire Chief

**HOUSTON, ALASKA  
RESOLUTION 10-16(S)**

**A RESOLUTION OF THE HOUSTON CITY COUNCIL APPROVING THE FY 2012  
CAPITAL IMPROVEMENT PROGRAM AND LISTING ITS PRIORITIES.**

WHEREAS, the City of Houston is planning for FY 2012 capital improvements as part of its 5 year capital improvement program; and

WHEREAS, the City seeks support from the State of Alaska Legislature to meet its capital improvement needs.

NOW, THEREFORE, BE IT RESOLVED, by the Houston City Council that the following projects are hereby identified as priorities for Fiscal Year 2012.

1. 3,000 Gallon Tanker and Related Equipment – Houston Fire Department
2. Cheri Lake Alaska Road Upgrade
3. Meadow View Roads Upgrade – Phase 1
4. Road Maintenance Equipment – Road Grader Purchase
5. Patrol Vehicle – Houston Police Department
6. Thermal Imaging Cameras – Houston Police & Fire Departments
7. Radio Communications & Data Exchange – Houston Police Department
8. Public Use/City Council Computer Upgrade

PASSED AND APPROVED by a duly constituted quorum of the Houston City Council this \_\_\_\_ day of \_\_\_\_\_.

**THE CITY OF HOUSTON, ALASKA**

\_\_\_\_\_  
Virgie Thompson, Mayor

**ATTEST:**
