Total Funding to complete project \$15,000.00

Primary House District: 21 **Secondary House District(s):** 32

Primary Senate District: K **Secondary Senate District(s):** P

Project Description

Principal's Priority 2

The project will include professional development opportunities both within the school day and after school to provide teachers with the skills necessary to effectively teach technology to their students. We will also purchase mobile technology that will engage students in learning, enhance instruction, increase motivation, allow for individualized instruction, and accommodate multiple learning styles.

Benefits if Project is Funded

The benefits will be numerous: improvement in academic achievement in reading, writing, and math skills, increased competence and confidence in teaching technology for teachers, student motivation and engagement, student skills to use technology as a tool and resource as they move into secondary school and on into college, student knowledge and expertise in putting together digital presentations and multimedia projects. None of these benefits will be realized without the mobile technology and the professional development for teachers.

Impacts if Project is not Funded

of Students impacted by project 380

Project Start Year 2011

Project Finish Year 2012

Project has matching funds available **No**
