<b>Fund Change from General Fund Program Receipts to General Fund for the Southeast Tanner Crab Survey</b>												
1004 Gen Fund	IncM	109.8	77.2	9.0	0.0	23.6	0.0	0.0	0.0	0	0	0
<b>Totals</b>		<b>8,300.6</b>	<b>6,033.4</b>	<b>173.0</b>	<b>1,438.6</b>	<b>615.6</b>	<b>40.0</b>	<b>0.0</b>	<b>0.0</b>	<b>52</b>	<b>50</b>	<b>0</b>

In 2009, the Alaska Board of Fisheries (BOF) adopted a Tanner crab management plan that was a compromise reached between industry and the department, and relies on biomass estimates derived from a pot survey that is currently funded in FY11 with General Fund Program Receipts (GF/PR) receipts in the Commercial Fisheries (CF) Special Projects component. This fund source was changed from Non-dedicated F&G Fund in FY11 to GF/PR with revenue streaming from commercial crew license fees. Given the inability to predict the revenue collected from year to year, and given the importance of this project due to a Board of Fisheries regulatory change, a request to move the project to General Funds is being made. A decrement of GF/PR authority is requested in the Commercial Fisheries Special Projects component to offset the increment in the Commercial Fisheries Southeast Region Fisheries Management component.

**Fund Source Change from Test Fish to General Fund for Upper Cook Inlet and Bristol Bay projects**

IncM	160.0	0.0	0.0	160.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund	160.0										

This fund change provides General Funds in lieu of Test Fish authority to fund the Upper Cook Inlet (UCI) Offshore Test Fish project and the Bristol Bay Port Moller Test Fish project.

The primary objective of the UCI Offshore Test Fish project is to assess actual run strength of sockeye salmon entering UCI as they pass Anchor Point at the southern boundary of UCI. Management during the early part of the season is based on the preseason forecast. Once sufficient information is collected from the offshore test fishery, catch and escapement is used to produce a more accurate inseason projection of run strength. This projection is critical, enabling the department to meet escapement goals and carry out allocative directions of the Board of Fisheries.

The primary objective of the Bristol Bay Port Moller Test Fish project is to assess stock composition and abundance of sockeye salmon as they approach Bristol Bay. The department uses this information as part of its inseason sockeye salmon stock assessment program to monitor run timing, abundance, and stock composition. This project is of great interest to the commercial fishing industry as an index of Bristol Bay salmon abundance and run timing.

<b>Transfer PCN 11-1489 from Special Projects to the AYK Region for the Eagle Border Sonar Project</b>												
Trin		0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	1	0
<p>Part time PCN 11-1489 is being transferred from the Commercial Fisheries Special Projects component to the AYK Region Fisheries Management components due to funding assignment. This position had been funded via statutory designated program receipts in support of the Yukon River Canadian Border sonar program. A General Fund increment is being submitted to support this program, requiring this PCN to be reassigned to General Funds and transferred to the AYK Region Fisheries Management component.</p>												
<b>Norton Sound Crab Research</b>												
Inc		50.0	0.0	0.0	15.0	35.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		50.0										
<p>The Norton Sound red king crab fishery is the most valuable commercial fishery in the AYK Region, providing significant economic opportunity in an economically depressed area of the state, as well as year-round subsistence opportunity. ADF&amp;G manages these fisheries in collaboration with the North Pacific Fishery Management Council (council) and conducts high-seas research on a bi-annual schedule to model population size and health, and establish guideline harvest levels. This increment would fund annual inseason research and assessment of Norton Sound red king crab populations that would help ensure sustainable populations, while maximizing harvest opportunity, would provide information to assist the Alaska Board of Fisheries and the council in making allocation and regulatory decisions, and would assist researchers and managers in refining population models and harvest strategies.</p>												
<b>Fund Change from SDPR to General Fund for Yukon River Canadian Border Sonar Operations</b>												
IncM		119.7	86.1	1.4	8.1	24.1	0.0	0.0	0.0	0	0	0
1004 Gen Fund		119.7										

The Canadian border sonar program near Eagle assesses passage of Yukon River Chinook and fall chum salmon into Canada and allows for reconstruction of total Yukon River salmon runs. The sonar program is a core component of Yukon River salmon management and critical to evaluation of Alaskan obligations under the Yukon River Salmon Treaty. This operating increment would replace funding from the Yukon River Panel Restoration and Enhancement Fund (statutory designated program receipts (SDPR) authority). The Panel has indicated it does not intend to fund baseline operations of this sonar program beyond the 2010 season, believing that this project is a core agency responsibility. Without this funding, the project could not be operated for the entirety of the Chinook and fall chum salmon runs. An off-setting decrement is requested in the Commercial Fisheries Special Projects component to decrease SDPR authority.

<b>Delete Excess Federal ARRA Authority</b>												
1212 Fed ARRA	Dec	-50.0	0.0	0.0	-50.0	0.0	0.0	0.0	0.0	0	0	0
Federal American Recovery and Reinvestment Act authority is in excess to the needs of the division and is being reduced. The authority provided revenue to the Alutiiq Pride Hatchery to recoup losses incurred in feed production. The project is complete.												
<b>Fund Source Change Needed to Obtain F&amp;G Fund Authority in lieu of GF/Program Receipts</b>												
1005 GF/Prgm	FndChg	-200.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1024 Fish/Game		200.0										
In the 2010 legislative session, the Commercial Fisheries Division's Fish and Game Fund authority (\$383.6 in Headquarters Fisheries Management and \$1,207.6 in Special Projects) was converted to General Fund/Program Receipts (GF/PR; Designated GF) as part of the Budget Clarification Project. The revenue collected is commercial crew license receipts and civil fishing fines and forfeitures. Per AS 16.05.110(a) (3), fishing fines and penalties are to be deposited into the Fish and Game Fund. Approximately \$200.0 annually is projected to be civil fishing fines and penalties. This funding source change re-establishes \$200.0 of Fish and Game Fund authorization.												
<b>Fund Change from General Fund Program Receipts to General Fund for the Southeast Tanner Crab Survey</b>												
1005 GF/Prgm	Dec	-109.8	-77.2	-9.0	0.0	-23.6	0.0	0.0	0.0	0	0	0
In 2009, the Alaska Board of Fisheries adopted a Tanner crab management plan that was a compromise reached between industry and the department, and relies on biomass estimates derived from a pot survey that is funded in FY11 with General Fund Program Receipts (GF/PR) receipts in the Commercial Fisheries (CF) Special Projects component. Because of regulatory changes, stable funding is needed. Without adequate funding, an inability to implement the management plan would exist and cause much more restrictive management regimes. This decrement of GF/PR authority offsets the general fund increment in the Southeast Region Fisheries Management component.												
<b>Fund Change from SDPR to General Funds for Yukon River Canadian Border Sonar Operations</b>												
1108 Stat Desig	Dec	-119.7	-86.1	-1.4	-8.1	-24.1	0.0	0.0	0.0	0	0	0
The Canadian border sonar program near Eagle assesses passage of Yukon River Chinook and fall chum salmon into Canada and allows for reconstruction of total Yukon River salmon runs. The sonar program is a core component of Yukon River salmon management and critical to evaluation of Alaskan obligations under the Yukon River Salmon Treaty. This decrement deletes funding from the Yukon River Panel Restoration and Enhancement Fund (statutory designated program receipts (SDPR) authority). The Panel has indicated it does not intend to fund baseline operations of this sonar program beyond the 2010 season, believing that this project is a core agency responsibility. Without this funding, the project could not be operated for the entirety of the Chinook and fall chum salmon runs. Consequently, an off-setting increment is requested in the Commercial Fisheries AYK Region Fisheries Management component to increase general fund authority.												
<b>Increase CIP Receipts Authority for Positions Assigned to CIP Projects</b>

1061 CIP Rcpts		-146.7										
1108 Stat Desig		-164.3										

Several fund sources within the Commercial Fisheries Special Projects component will not have sufficient revenue to support COLA, geographical differential, and health insurance increases. Therefore, a fund source change to General Funds is required for the following fund sources.

Federal Receipts authority: The division receives several important grants from the National Marine Fisheries Service. Examples include Pacific Salmon Treaty, Bering Sea Crab Research, and the Federal Subsistence program. Potential reductions of between \$38.5 and \$158.9 are expected within each of these programs if General Fund is not provided in lieu of the unrealizable federal receipts authority. Reductions within the Pacific Salmon Treaty grant will include shifting grant personnel onto General Funds already allocated to other programs due to treaty obligations having to be met. It is anticipated that some sockeye salmon stock assessment projects would be eliminated or reduced, which would result in more conservative management of these fisheries. The Bering Sea Crab Research grant reductions would include at-sea observer data would not be reviewed, edited, and distributed to analysts and managers in time to assess stock status and determine total allowable catches according to the state and federal fishery management schedules and processes; snow crab specimens collected for annual assessment of reproductive potential would not be fully processed, which would affect harvest strategies needed for developing a rebuilding plan for this stock. The federal subsistence program would likely see elimination or reductions of a variety of fishery assessment projects. In the absence of all or part of the information provided by these programs, more conservative management would be necessary and may result in both commercial and subsistence fisheries being curtailed or closed.

General Fund/Program Receipts (GF/PR) authority: The GF/PR category includes revenue streams coming from commercial crew license revenue for statewide projects and dive tax assessments for projects in Southeast Alaska. In order to maintain current project levels without concern for insufficient revenue, General Funds are required to support these personal services increases.

Interagency (I/A) Receipts authority: These receipts are related to Reimbursable Services Agreements (RSA). Increasing I/A receipts authority is in essence, empty authorization unless increments are provided to each RSA requesting agency as well. The empty authorization results in the servicing agency absorbing the increased administrative cost which translates to a reduction of programmatic funds.

Capital Improvement Project (CIP) Receipts: The division receives funding from several capital projects, including the Pacific Coastal Salmon Recovery Fund (PCSRF). This program has limited discretionary funds available; therefore, an increase in CIP authority will not translate into additional project funding to cover the personal services increases. These projects provide numerous benefits, including monitoring of salmon harvest and escapements, habitat protection and restoration, and fulfillment of some of the monitoring obligations in the Pacific Salmon Treaty. Elimination or reduction of these projects would result in diminished salmon populations and reduced harvest opportunities for subsistence, sport, and commercial fisheries.

Statutory Designated Program Receipts (SDPR): The division has numerous contracts from non-state and non-federal agencies. The division's largest program within the SDPR category is the Alaska Fishery Information Network (AKFIN) grant. An approximate reduction of \$108.0 is expected in the AKFIN program without a fund source change to General Funds. The remaining amount of this fund change would support several other contracts important to the division. AKFIN program reductions would include support for fishery economic analysis on groundfish and shellfish fisheries and an RSA to the Department of Labor and Workforce Development for crew member employment estimates. It would also be necessary to eliminate funding for research database development, which is in the process of "rescuing" historical data that does not reside in a database. These reductions will diminish the State's ability to protect coastal communities

and Alaska residents from changes to employment, earnings, and related community impacts associated with current management plans and any proposed changes to those plans under consideration by the North Pacific Fisheries Management Council and the Alaska Board of Fisheries. The loss of funds for research database development will jeopardize historic data that is necessary to identify longterm changes in fishery performance and resource productivity.

1024 Fish/Game		-279.9										
1061 CIP Rcpts		-85.9										

The following other fund sources do not have revenues to support the pay and health increases so the fund sources need to be changed to General Funds.

Federal Receipts: Sport Fish Restoration Program (Dingell-Johnson Wallop-Breaux) comprise 73% of the Sport Fish Division's federal receipts and are derived from the collection of a federal excise tax on the sale of sport fishing-related equipment and fuel. The funds are annually apportioned to the division using a formula-based method, the amount of which fluctuates from year to year based on the amount of taxes that were collected. In FY12, the division expects its annual apportionment will be 2-3% less than was received in FY11 due to a reduced amount of quarterly excise tax collection receipts, the final spend-down of a boating safety account within the national Sport Fish Restoration Trust Fund (which had resulted in approximately an additional \$1.0 million/year to the division's annual apportionment over the past 3-4 years), and the financial forecast of entities responsible for administering the trust fund (U.S. Department of Taxation and Revenue and U.S. Fish and Wildlife Service).

Based on the anticipated decline in the division's annual apportionment that is already fully allocated, an increase in federal receipt authority will not make it possible to absorb personal services increases because it does not translate into additional money. If the division does not receive General Funds it will need to absorb these increases in Fish & Game Funds which will result in significant programmatic cuts and reductions to staff.

Interagency (I/A) Receipts: These receipts are related to Reimbursable Services Agreements (RSA). Increasing I/A receipt authority is in essence, empty authorization unless increments are provided to each RSA requesting agency as well. The empty authorization results in the servicing agency absorbing the increased administrative cost which translates to a reduction of programmatic funds.

Fish & Game Fund: The Sport Fish Division's Fish and Game Fund projection through FY12 continues to indicate a decline in the fund balance despite concerted efforts in FY08, FY09 and FY10 to arrest that trend through the elimination of redundancies and inefficiencies as well as significant reductions in spending. This decline is attributable to reduced license sales and king salmon stamp revenue contrasted with the absorption of increased operational and overhead costs, new hatchery operational costs and the cost of annual step increases over the past several years. To alleviate the strain on Fish and Game Funds, the division identified areas that were transferred to the Sport Fish Restoration Program (Dingell-Johnson Wallop-Breaux) which is the division's primary funding source representing 73% of the division's federal receipt authority. In addition, the division cut travel 10%, reduced staff training, and eliminated certain programs. Declining license sales contrasted with increased costs absorbed by the division will spur additional programmatic cuts if the division does not receive General Funds to cover these increased costs.

Capital Improvement Project (CIP) Receipts: The division receives funding from a variety of capital projects, although primarily the Pacific Coastal Salmon Recovery Fund (PCSRF) and Alaska Sustainable Salmon Fund (AKSSF). Under the PCSRF and AKSSF programs the total available funding is decreasing and there are limited additional discretionary PCSRF and AKSSF funds available, so an increase in CIP authority will not translate into additional money.

**Leadership Positions Funding for Newly Created Wildlife Region IV**

1004 Gen Fund	IncM	200.0	200.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
---------------	------	-------	-------	-----	-----	-----	-----	-----	-----	---	---	---

The south-central section of the state was divided into two distinct subunits as of July 1, 2010. The new Region IV includes offices in Glennallen, Palmer, Dillingham, and King Salmon. Leadership positions were established for the new Region by OMB through a revised program (RP) memo, ADN 11-0-0623 in May 2010. The RP described that about 60% of the cost of the positions and start-up would be supported by federal funding from an increment for wildlife management authorized for FY11. The activities performed by leadership positions for a region in the division are not fully eligible for federal Wildlife Restoration funding. Project accountability guidelines for leadership positions requires general funds for staff assignments specifically related to predator control, nuisance wildlife management, wildlife regulation enforcement, and administration. For FY11, the division will access available general funds held by an existing CIP appropriation established for game management, AR 43459. This is a one-time source available during FY11. The increment for FY12 requests the \$200.0 be made part of the component's base budget.

**Reclassify 11-1171 from Fish and Wildlife Technician III to Wildlife Biologist II**

	PosRecl	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
--	---------	-----	-----	-----	-----	-----	-----	-----	-----	---	---	---

Fish and Wildlife Technician III (PCN 11-1171) is planned to be submitted as a Wildlife Biologist II in support of the Wildlife Diversity program. The position will be assigned to assist with projects in the interior and will be based in Fairbanks.

**Correct Unrealizable Fund Sources for Personal Services Increases**

1004 Gen Fund	FndChg	205.1	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0

<b>ADN 11-1-0369 Transfer federal authority to Wildlife Conservation for Hunter Education projects</b>												
	Trout	-260.0	-65.0	0.0	-155.0	-40.0	0.0	0.0	0.0	0	0	0
1002 Fed Rcpts		-260.0										

Federal authority is needed in the Wildlife Conservation component for grant funding under Pittman-Robertson Wildlife Restoration, Hunter Education. The funding apportionment dedicated specifically for Hunter Education programs rose unexpectedly by 38% over FY10. The yearly apportionment of federal funds dedicated to Hunter Education must be obligated yearly to meet federal program guidelines.

August 2010 projections of federal spending in the Wildlife Conservation Special Projects component shows adequate federal authority for FY11 receipts. This transfer will have no impact on the Wildlife Conservation Special Projects component.

<b>ADN 11-1-0370 Transfer 2 PFT and 2 PPT positions from WC Special Projects to Wildlife Conservation due to funding</b>												
	Trout	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	-2	-2	0

Two full-time and two part-time positions are transferred from the Wildlife Conservation Special Projects component to the Wildlife Conservation component. The four positions are primarily funded in the Wildlife Conservation component. A line item transfer in this component adjusts budget detail for the related costs.

- 11-2123, Assistant Director - Anchorage - PFT
- 11-T010, ESA Response Coordinator, Anchorage - PFT
- 11-4209, Wildlife Biologist I - Palmer - PPT
- 11-4283, Fish & Wildlife Technician III - Soldotna - PPT

<b>Statutory Designated Program Receipts Authority to Receive Wildlife Conservation Society Funding for Wood Bison</b>												
	Trin	200.0	90.0	10.0	85.0	15.0	0.0	0.0	0.0	0	0	0
1108 Stat Desig		200.0										
A transfer in Statutory Designated Program Receipts (SDPR) from Sport Fisheries to Wildlife Conservation is needed to receive new Wildlife Conservation Society (WCS) funding for a Wood Bison project. The division has been actively preparing to reintroduce wood bison into Alaska since 2007. The first placement of bison into the wild is planned during FY12. Grant funding from WCS will be used for logistic expenses of moving bison from their temporary home near Girdwood to the release location and for initial monitoring of the herd.												
A fund source change for FY12 is also documented to note a funding relationship between WCS and federal grant funding from the U.S. Fish & Wildlife Service. WCS funds serve as the match to State Wildlife Grant funding planned for the wood bison reintroduction project in FY12.												
<b>Change Fund Sources to Federal Receipts to Support Wood Bison Reintroduction Project</b>												
	FndChg	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1002 Fed Rcpts		150.0										
1061 CIP Rcpts		-50.0										
1108 Stat Desig		-100.0										

A technical update to this component is needed to reconcile funding source needs in FY12 for restricted revenue categories.

Federal receipts authorization needs to be increased due to the planned award of a new grant from the U.S. Fish & Wildlife Service, State Wildlife Grants program. The division has been actively planning the reintroduction of wood bison into Alaska since 2007. The first placement of bison into the wild is planned during FY12. Federal State Wildlife Grant (SWG) funds will be awarded and matched by funding from a grant from the Wildlife Conservation Society (WCS).

										PFT	PPT	NP
indirect is a set amount and is part of the indirect cost allocation plan that is approved by the federal cognizant agency. The empty I/A authorization results in the Commissioner's Office absorbing the increased administrative costs which translates to a reduction of programmatic funds.												
Statutory Designated Program Receipts (SDPR): These receipts are related to fixed revenue received from the Pacific Fisheries Management Council (PFMC). Increasing SDPR receipt authority is in essence, empty authorization as PFMC receipts are the same amount each fiscal year. The empty authorization results in the Commissioner's Office absorbing the increased administrative costs related to the personal service changes.												
Capital Improvement Project (CIP) Receipts: The Commissioner's Office receives funding from a variety of capital projects, although primarily the Pacific Coastal Salmon Recovery funds (PCSRF). Under the PCSRF program the total available funding is decreasing and there is limited additional discretionary PCSRF funding available, so an increase in CIP authority does not translate to additional money. The CIP funding is used to partially supplement a couple positions. The empty authorization results in the Commissioner's Office absorbing the increased administrative costs related to the personal service charges.

Federal Receipts: Prior to each state fiscal year the division submits proposals to five different federal agencies and ten federal programs to receive contracts, grants, and cooperative agreements. As the division receives numerous contracts and grants from federal awards, each contract is written for a specific amount, period of performance and includes specific deliverables. The division cannot receive an increase in funding amounts from any federal funding agency. Based on past attempts, it is not likely that a federal funding agency would approve a contract modification for a reduction in the scope of work and work products to accommodate increases in state operational costs.

Interagency (I/A) Receipts: These receipts are related to Reimbursable Services Agreements (RSA). Increasing I/A receipt authority is in essence, empty authorization unless increments are provided to each RSA requesting agency as well. The empty authorization results in the servicing agency absorbing the increased administrative cost which translates to a reduction of programmatic funds.

Capital Improvement Project (CIP) Receipts: The division receives funding from a variety of capital projects, although primarily the Pacific Coastal Salmon Recovery funds (PCSRF). Under the PCSRF program the total available funding is decreasing and there is limited additional discretionary PCSRF funding available, so an increase in CIP authority does not translate to additional money.

Statutory Designated Program Receipts (SDPR). The division receives funding from private business, nonprofit organizations, and the North Pacific Research Board to conduct research on a variety of projects through SDPR. As with other research projects, the funds are received after a favorable competitive bid process typically over a year before contracts are awarded. Any change in cost would result in a contract change, requiring renegotiating the contract terms. This affects the original competitive bid award, and it is not viewed favorably.

**Correct Unrealizable Fund Sources for FY11 Personal Services Increases**

**Change Record Detail - Multiple Scenarios With Descriptions**  
**Department of Fish and Game**

1004 Gen Fund		26.1										
1061 CIP Rcpts		-7.2										

In FY11, personal service increases were funded with unrealizable receipts and this change record restores the general funds for the following.

Federal Receipts: Prior to each state fiscal year the division submits proposals to five different federal agencies and ten federal programs to receive contracts, grants, and cooperative agreements. As the division receives numerous contracts and grants from federal awards, each contract is written for a specific amount, period of performance and includes specific deliverables. The division cannot receive an increase in funding amounts from any federal funding agency. Based on past attempts, it is not likely that a federal funding agency would approve a contract modification for a reduction in the scope of work and work products to accommodate increases in state operational costs.

Capital Improvement Project (CIP) Receipts: The division receives funding from a variety of capital projects, although primarily the Pacific Coastal Salmon Recovery funds (PCSRF). Under the PCSRF program the total available funding is decreasing and there is limited additional discretionary PCSRF funding available, so an increase in CIP authority does not translate to additional money.

**RDU:** Habitat (151)

Scenario/Change Record Title	Trans Type	Totals	Personal Services	Travel	Services	Commodities	Capital Outlay	Grants, Benefits	Miscellaneous	Positions		NP
										PFT	PPT	
***** Changes From FY2011 Management Plan To FY2012 Governor *****												
<b>Transfer PFT PCN 11-1968 from Commercial Fisheries Special Projects for Gas Pipeline Work</b>												
	Trin	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	1	0	0
Full time PCN 11-1968 in the Commercial Fisheries Special Projects component is unneeded and is being transferred to the Habitat Division for gas pipeline project permitting.												
<b>Change Location, Job Class and BU for PCN 11-1968</b>												
	PosRecl	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
The Division of Habitat is requesting to change location of PCN 11-1968 from Ketchikan to Fairbanks and reclass from a full-time Supervisory Fishery Biologist I position to a full-time General Government Habitat Biologist IV position. This position will serve as the lead on all gasline work for the division.												
<b>Lead Position for Gasline Projects</b>												
	Inc	103.5	95.5	0.0	1.0	7.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		103.5										
This increment will support one new Range 20 Habitat Biologist IV PCN 11-1968 position to be stationed in Fairbanks which will support the division's participation in planning/permitting on gasline projects.												
<b>Reduce Excess Inter-Agency Receipts Authority</b>												
	Dec	-392.0	0.0	0.0	-178.7	-103.3	-110.0	0.0	0.0	0	0	0
1007 I/A Rcpts		-392.0										
In FY 11, additional I/A Receipts authority was requested for anticipated RSA projects, but the RSAs were funded with CIP Receipts. Adequate CIP Receipts authority is already budgeted.												
<b>FY 2011 Over/Understated GGU/SU salary adjustments</b>												
	SalAdj	17.9	17.9	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		15.6										
1061 CIP Rcpts		1.6										
1108 Stat Desig		0.7										
When the SU and GGU salary adjustments were calculated, errors were made that understated some GGU amounts and overstated some SU amounts. This change record identifies the over and under stated amounts associated with these calculations.: \$17.9												
<b>Correct Unrealizable Fund Sources for Personal Services Increases</b>

The following other fund sources do not have revenues to support the pay and health increases so the fund sources need to be changed to GF.

I/A Receipts: These receipts are related to Reimbursable Services Agreements (RSA). Increasing I/A receipt authority is in essence, empty authorization unless increments are provided to each RSA requesting agency as well. The empty authorization results in the servicing agency absorbing the increased administrative cost which translates to a reduction of programmatic funds.

Federal Receipts: These receipts are related to Federal projects. Increasing Federal receipt authority is in essence, empty authorization unless increments are provided by Federal agencies. The empty authorization results in Habitat absorbing the increased administrative costs which translates to a reduction of programmatic funds.

IA/Oil HAZ Receipts: These receipts are related to a RSA we receive from Department of Environmental Conservation. In FY12, we know we will not be getting additional funds for this project. The empty authorization results in Habitat absorbing the increased administrative costs which translates to a reduction of programmatic funds.

CIP: These receipts are related to personal service charges against capital projects. Increasing CIP receipt authority is in essence, empty authorization as the capital projects are for a fixed amount. The empty authorization results in Habitat absorbing the increased administrative costs related which translates to a reduction of programmatic funds.

**FY 2012 Personal Services increases**
