

**Material Site Mining Plans**

**FY2012 Request: \$200,000**

**Reference No: 50803**

**AP/AL:** Allocation

**Project Type:** Information Technology / Systems / Communication

**Category:** Transportation

**Location:** Fairbanks (Fairbanks/Fort Wainwright)

**Contact:** Frank Richards, Deputy Commissioner

**House District:** Fairbanks/Fort Wainwright (HD 10)

**Contact Phone:** (907)465-3900

**Estimated Project Dates:** 07/01/2011 - 06/30/2016

**Appropriation:** Highways and Facilities

**Brief Summary and Statement of Need:**

Most Northern Region Material sites do not have a written development plan, which sometimes leads to long-term complications when poorly planned extraction causes problems. This project would prepare well thought out plans for our material sites at most risk of future issues.

Ongoing Operating:	0	0
One-Time Startup:	0	0
<b>Totals:</b>	<b>0</b>	<b>0</b>

**Additional Information / Prior Funding History:**

This is the first year for this project.

**Project Description/Justification:**

This funding would pay for development of a DOT/PF booklet, available online that contains requirements for mining in our various types of material sites across the region. This would apply to all material sites. It is going to be required soon as a large number of our BLM material sites on the Dalton require renewing in 2010. The BLM will require mining plans for each location of detailed guidelines would be used as a standard for all material sites and will save considerable effort, and provide for better control over contractor activities.
