Project Description/Justification:

The FAA mandates that Runway Safety Areas at all certificated airports be improved by 2015. The Unalaska Airport is an important certificated airport with over 20,000 annual operations. This project will address the longitudinal runway safety area at the airport, as well as the runway pavement condition. The current Pavement Condition Index (PCI) for the Unalaska runway is between 10 and 24, well within the reconstruct range.
