The court system leases court facilities from several private landlords throughout the state. During FY12, through a competitive bid process, three new court facilities were opened in the fourth district. Due to higher costs associated with construction projects in these communities, the annual rent expense for facilities in Aniak, Galena, and Hooper Bay was higher than initially projected. Of the amount requested, \$59,200 is for funding to pay the lease expenses in the three new facilities. In addition to this amount \$18,400 is required to fund planned lease increases for long-term leases. Finally, an additional \$35,000 is requested to pay increased costs assessed by the Department of Military and Veteran's Affairs for the space the court system occupies in Kotzebue.

The Alaska Court System occupies space in the Dimond Courthouse and the Palmer State Office Building. The Department of Administration has advised the

As with utilities, service contracts, supplies and other expenses of the court system, the costs for the maintenance and support for software has increased. Failure to pay the software support costs will render the court unable to receive software upgrades and software patches that are needed to repair "bugs" detected after software applications are released. The migration over to a new case management system, a new digital imaging system, and a new recording system has required extensive investment in new software and upgraded Microsoft software applications to address the court's functional requirements. It is imperative that this investment be protected by purchasing licensing and maintenance agreements.</p>

<p>In Alaska Court System's budget requests for the last four fiscal years, funding was sought for the "No Dark Courtrooms" initiative to improve courtroom efficiency around the state. A portion of the funding requested has been appropriated each year with the understanding that the court would seek further funding during subsequent legislative sessions. This initiative is integral to the court system's long-range planning effort.</p>												
<p>Past appropriations have supported projects in Palmer, Anchorage and Fairbanks that improved courtroom efficiency by streamlining proceedings. In these locations, a second in-court clerk is now present during high volume proceedings so that case paperwork can be generated and distributed to parties in the courtroom, and data essential to public safety can be recorded more systematically in the court's electronic systems, in an effort to make it immediately accessible throughout the justice system. Judgments, bail conditions, and other court orders are available to defendants and attorneys without delay, which has promoted compliance by defendants and eliminated the need for subsequent paper processing and mailing. These improvements are not only beneficial to the court, but also to the Department of Corrections, state and local law enforcement, and other justice agencies.</p>												
<p>Using funding for this initiative, the court system was also able to add new court clerk positions in Anchorage, Palmer, Kenai, Bethel, and Nome to address serious courtroom understaffing. The new positions help to ensure that no court proceedings are postponed or canceled due to the unavailability of court support staff. The court system also added general clerical positions in Juneau, Naknek, Kotzebue, Palmer, Ketchikan, and Anchorage and was able to increase the hours of a position in Bethel.</p>												
<p>For FY13, the court system is requesting the remaining six positions needed to complete this initiative. The funding for the six remaining positions will be used to hire additional range 10 clerks, range 12 courtroom personnel, and range 14 supervisors. The new courtroom positions will ensure that an adequate number of in-court clerks are available for court proceedings and will also improve the court system's ability to train in-court staff. Given the complexity of the job, it takes approximately one year for an in-court clerk to be fully trained. The additional range 10 clerical positions will allow understaffed courts to keep up with data entry and distribution of orders and other documents.</p>

There are forty three (43) magistrates statewide serving as judicial officers. In addition, twenty six (26) individuals have deputy magistrate appointments to serve as limited judicial officers. The tremendous range of duties performed by these magistrates and deputy magistrates, together with the range of training and experience which these judicial officers bring to the table, creates a high demand for a wide variety of training services. At present, only one individual is assigned to coordinate and assist in providing judicial educational services to this group. An additional position to assist in the delivery of these services is essential to adequately meet this demand and ensure better delivery of training services. Providing adequate judicial education, skills training, and professional development opportunities to magistrates will improve and enhance job performance and, ultimately, the administration of justice. With this comes greater satisfaction by the public and increased confidence in the judicial system as a whole.

Automation of its case management system requires the court to regularly update its operating systems to be compatible with software versions and licensing requirements. Rapid advancements in computer technology require the court system to continually evaluate and improve its base of technological equipment. In the past, the court has received sporadic grant and capital funding to replace equipment and operating systems. To ensure a planned, life-cycle approach to replacement of these systems, a sustained source of funding must be incorporated into the court's base operating budget. Experts recommend replacement cycles of three years for personal computers (PCs) and four years for printers. The court plans to keep its equipment in place for an additional year beyond the recommended guidelines, but requires a sustained funding source to facilitate this cycled approach. In its funding base, the court system has received \$425,000. An appropriation of \$175,000 will secure a base funding of \$600,000 to facilitate a planned life-cycle approach to replacement of these critical systems.

The Emmonak courthouse requires additional space to function as a district court trial site. The Emmonak court is currently in a 1,040 sqft facility. Funding is requested to secure a facility in Emmonak that is comparable to the facilities that were recently constructed (or are under construction) and leased in Hooper Bay, Aniak, and Galena. The estimated increased cost to secure a 1,850 sqft lease is \$74,500. Expanding the Emmonak facility supports the court's fairness and access goal to increase judicial presence in rural areas.

Administration requests \$326,700 for three permanent full-time position. These requests are described below:  Fiscal operations needs an additional records technician to maintain continuous case file document scanning and to ensure timely responses to public record requests for documents that are available only on microfilm, which is cumbersome to access. This position will assist with the court system's imaging project, which is an effort to scan and digitize court records for improved access by court staff, other entities such as the Child Support Services Division, and the public. With additional staffing, the records management division will be able to expedite the scanning and digitizing of court documents for more efficient and timely access. This position is estimated to cost \$71,800.  The court system operates 44 court facilities, most of which are leased from private landlords or other government entities. The court system has never received funding for a permanent, full-time contracts and leasing manager, relying instead on project-funded employees to perform this work. The contracts and leasing manager will: (1) work with court staff to identify space needs and technical requirements for new leases and service contracts; (2) negotiate and manage leases and contracts for building services, such as janitorial, snow removal, and landscaping; (3) monitor contract compliance and address occupant concerns; and (4) manage small construction projects related to tenant improvements and maintenance work. This position will cost approximately \$141,400.  The court system requires a security analyst to organize and manage security projects and processes at court facilities throughout the state. The security needs of the court system are great and require a single point of contact to insure issues are being addressed systematically. This position will coordinate and oversee the installation of security systems, including access control, video surveillance, emergency communications, and badging systems; coordinate with the Bureau of Judicial Services within the Department of Public Safety, local court management, and vendors and contractors to implement security controls and systems; work with contractors to address statewide physical security policies and procedures as they relate to construction projects; and be responsible for security management and public relations, building security, information technology security, and emergency preparedness and planning. This position is estimated to cost \$113,500.

During the FY12 budget process, the legislature added funding to the Therapeutic Courts appropriation for a position that was previously funded by the Municipality of Anchorage. This position, which is supervised by the Department of Health and Social Services, is an integral part of the success of the Anchorage Wellness Court and a permanent funding source is requested. This case coordinator works directly with participants, monitoring compliance with the treatment plan and other court requirements. The case coordinator manages treatment and ancillary services such as housing, medical care, and job placement. Securing funding for a permanent position to oversee these participants is critical to their success.

The funding may be used to provide training on topics related to mental health disorders and/or cognitive impairments and associated treatments, addictions and associated treatment, therapeutic jurisprudence principles and practices, or other topics identified and approved by The Trust. By providing this training and education these professionals are better equipped to understand the needs of Trust beneficiaries, consider underlying causes for a beneficiary's contact with the criminal justice system, and to set appropriate conditions of bail/probation given the individuals mental and/or cognitive capacity. This project will result in minimizing the risk of future costs associated with incarceration and the processing of another criminal case as a result of bail/probation violations. The training may occur at an annual judicial or magistrate conference or at joint conference with the Dept. of Law, Public Defender Agency, and Office of Public Advocacy.

This project will continue funding an existing position within the Alcohol Safety Action Program (ASAP) located in Barrow. This position identifies available treatment, makes treatment recommendations to the court and supports and monitors adherence to those court ordered recommendations. The DHSS/BH/ASAP Program Coordinator manages and supervises the position.

This project is a critical component of the Disability Justice Focus Area plan, by providing a therapeutic court alternative in rural/remote Alaska that addresses the underlying disorder that contributed to the individual's contact with the justice system. Thus, this project will minimize the risks of the future costs incurred by contacts with the criminal justice system.

The FY13 MHTAAR increment maintains the FY12 funding level & momentum of effort.

This project will provide a therapeutic court alternative for Trust beneficiaries in an identified community. The project and its funding will be managed by the Alaska Court System staff.

This project is a critical component of the Disability Justice Focus Area by providing a court alternative that will identify the underlying reasons for an individual's contact with the criminal justice system, and then developing a court-ordered treatment plan that addresses treatment needs and which will be monitored by the court, thereby decreasing risk of future contact with the criminal justice system, care within a correctional or psychiatric institution and the associated high costs. Court System staff will provide outcome data on how the funding is utilized, the associated cost savings as well as the number of individuals served and their outcomes.

The FY13 MHTAAR increment maintains the FY12 momentum of effort.

This project will continue funding for a therapeutic court alternative for Trust beneficiary youth involved in the juvenile justice system. The project and its funding will be managed by the Alaska Court System.

This project is a critical component of the Disability Justice Focus Area plan by engaging Trust beneficiary youth in treatment to avoid future more-expensive treatment services or costs associated with the adult correctional and judicial systems. Court System staff will provide outcome data on how the funding is utilized & associated cost savings as well as the number of youth served and their outcomes.

Starting in 1998 the Trust, Alaska Court System and other criminal justice departments and agencies partnered to offer a therapeutic alternative to targeted populations and communities in an effort to address the underlying issues related to contact with the criminal justice in an effort to reduce recidivism. Timely access to substance abuse and mental health treatment services is a critical component to the operations of these courts, the success of its participants, and the reduction in criminal recidivism.												
This project was started with MHTAAR funding in FY09. The FY13 GF/MH increment is required to maintain the momentum of effort started in FY09.
