

# **State of Alaska FY2013 Governor's Operating Budget**

## **Department of Environmental Conservation Spill Prevention and Response Director Component Budget Summary**

**Component: Spill Prevention and Response Director**

**Contribution to Department's Mission**

Protect public safety, public health and the environment through prevention, preparedness and cleanup of oil and hazardous substance releases.

**Core Services**

- Manage Division resources to protect public health and the environment through safe handling of oil and cleanup of oil and hazardous substance releases.
- Manage the Oil and Hazardous Substance Release Prevention and Response Fund.
- Coordinate state spill prevention and response programs with state and federal agencies, industry and nongovernmental organizations.
- Implement state spill prevention and response programs to ensure the safe handling of oil through prevention, preparedness and response using a risk-based approach.

**Major Activities to Advance Strategies**

- Manage Division resources to ensure response, removal and remediation of oil and hazardous substance releases.
- Implement a risk-based decision making process to ensure that Division resources are directed to the highest priority Division needs.

**Key Component Challenges**

Three programs in the Division implement a wide array of interrelated activities to meet the Division goals for prevention preparedness and response. The programs include the Prevention and Emergency Response Program, Industry Preparedness and Pipeline Operations and the Contaminated Sites Program. These programs are designed to meet the department's statutory obligation to protect public safety, public health and the environment while fostering economic growth and resource development through rational, unambiguous, predictable and integrated regulatory requirements.

The conservation surcharge revenue has been declining due to the reduction in crude oil production from a peak of 2 million barrels per day to an FY2013 forecast of 612,000 barrels per day. The conservation surcharge revenue has declined to a point where it can no longer sustain the Division's core spill prevention, preparedness and response programs.

New state regulations are being phased in for multi-phase and produced water pipelines. Compliance oversight for the new regulations includes development of field inspection strategies, engineering reviews and a compliance inspection program.

**Significant Changes in Results to be Delivered in FY2013**

None.

**Major Component Accomplishments in 2011**

Accomplishments have been listed at the component level.

**Statutory and Regulatory Authority**

AS 46.03, AS 46.04, AS 46.08, AS 46.09, 18 AAC 75, 18 AAC 78.
