

# **State of Alaska FY2014 Governor's Operating Budget**

## **Department of Administration Facilities Component Budget Summary**

## Component: Facilities

### Contribution to Department's Mission

This component holds the funding to pay costs associated with Public Building Fund facilities. Please refer to the Facilities Administration component for a complete description of this program.

### Core Services

- This component holds the funding to pay Department of Administration managed facilities costs. Please refer to the Facilities Administration component for a complete description of this program.

### Major Component Accomplishments in 2012

- Identify problems with building components and plan for their renewal and replacement.
- Completed major capital improvement projects in most Non Public Building Fund facilities. Provided construction management services for remodeling, utilizing in-house maintenance staff for Juneau facilities.
- Completed the energy conservation project through the State's Energy Performance Contractor, at the Atwood and Community Buildings.
- Provided construction management services for remodeling Agency space using outside contractors.
- Building Advisory Committee from occupying departmental representatives expressed their continued satisfaction in our responsiveness of maintenance calls and the established Facility Call Center.
- Provided weekly informational facility email messages to all Department of Administration managed building occupants. These emails provide current maintenance and construction items which could impact their occupancy at various levels.
- Identified and managed methods to reduce energy consumption and utility expenses.
- Identified and scheduled significant collocation and expansions in the Atwood Building to maximize space efficiency.
- Completed investigations, analysis and space studies in order to provide recommendations for the Nome State Office Building project.
- Completed site inspections and analysis of industry standards and State needs (current and future) to provide recommendations to replace the current Department of Natural Resources Geological Materials Center.

### Key Component Challenges

**Facility Management** - General Services will address high priority projects for renewal and replacement of essential building components and complete major capital improvement projects at the following facilities:

**Robert B. Atwood Building** – Upgrade seismic supports in the mechanical penthouse.

**Alaska Office Building** – Replace all electrical receptacles and rewire.

**Community Building** – Replace plumbing lines and upgrade restrooms on floors 2 and 3.

**Court Plaza Building** – Investigate, identify and prepare architectural and engineering documents to address the continued water infiltration from the building's curtain wall.

**Fairbanks Regional Office Building** – Replace the air condition system, compressor and controls.

**State Office Building** – Phase I renovation of North and South Garages.

**Dimond Courthouse Building** – Upgrade and configure supply and return fans.

**Douglas Island Building** – Phase I Architectural, structural, mechanical, and electrical upgrades.

**Palmer State Office Building** – Identify agencies to occupy remaining vacant suites.

**Linn Pacillo Parking Garage** – Complete tenant improvements for 12,721 square feet for the Department of Revenue. Continue to mitigate lease damages through legal counsel regarding tenant dispute with vapor retarder

system at the proposed Wildfin Restaurant.

**Energy Efficiency** - Continue the identification of building operational cost savings practices to reduce energy utility expenses.

**Emergency Call Misdials** - Continue coordinated efforts with Enterprise Technology Services to change the requirement to dial 9 for an outside line on state phones, which causes approximately 1-6 misdials per day by State employees in Juneau and Anchorage.

**Space Standards** - General Services is actively analyzing and revising the space standards developed in 2004 which are based on position descriptions to a universal space standards concept that allocates space based on the number of employees in a suite multiplied by 190 square feet. If approved, the new space standards will allow estimated thousands of square feet of office space in Public Building Fund and Non Public Building Fund facilities to be utilized by agencies over procuring lease space through the private sector.

### **Significant Changes in Results to be Delivered in FY2014**

**Facility Management** - The Nome State Office Building will be added to the Public Building Fund portfolio, and General Services will assume responsibility for major building renovations, as well as the day-to-day maintenance and operations. We will identify tenants to fill the space in the Robert B. Atwood Building vacated by the Department of Revenue that relocated to the Linny Pacillo Parking Garage. We will continue to maximize space efficiency, and improve collocation of agencies within the building.

**Parking** - The agency will manage, operate and control employee parking during business hours, as well as paid parking by the public during non-business hours at the Linny Pacillo Parking Garage.

**Contract Management** - The division will identify and orchestrate cost effective changes with State's professional service contracts in the management of the Public Building Fund facilities, specifically the Robert B. Atwood Building, Linny Pacillo Parking Garage and the Palmer State Office Building.

**Energy Savings** - Through an internal audit, our agency will provide management with the potential energy consumption, and associated expense currently being used by employees for their personal appliances in Public Building Fund facilities. If significant savings can be realized, a Standard Operating Procedure will be implemented to eliminate personal appliances. In addition to energy savings, the buildings will also gain needed circuits for state business use. The division will also analyze the feasibility and energy savings potential of a wood pellet heating system in key Public Building Fund facilities.

**Security Assessment** - A security assessment for key Public Building Fund facilities will be conducted, to identify additional security measures and provide information on upgrades to existing security measures.

### **Statutory and Regulatory Authority**

AS 44.21.020 (1), (5) Duties of the Department
