Project Description/Justification:

Deferred maintenance needs at the Alaska Army National Guard armory in Fairbanks includes replacement of the boilers and lighting.

Boilers at the armory need to be replaced as they are aging and failing. Their replacement will provide for a modern and energy efficient heat distribution system. Lighting at the armory will be replaced with light emitting diode (LED) fixtures. Both projects work to reduce operational and maintenance costs. Priorities and cost estimates may need to be changed to accommodate emergency maintenance projects not listed, actual project costs, and other considerations.
