Fairbanks International Airport - Facility Improvements, Renovations and Upgrades

FY2014 Request: $100,000
Reference No: 56939

AP/AL: Allocation
Category: Transportation
Location: Fairbanks Areawide
Impact House District: Fairbanks Areawide (HD 1-5)

Project Type: Construction
House District: Fairbanks Areawide (HD 1-5)
Contact: Steven Hatter

Estimated Project Dates: 07/01/2013 - 06/30/2020
Contact Phone: (907)269-0730

Brief Summary and Statement of Need:
Provide miscellaneous facility improvements, renovations, and upgrades associated with normal deterioration, equipment failures, mechanical upgrades, changing operational needs, changing security requirements, enhanced aesthetics, and other modifications at any of the airport owned building-type facilities. Examples of the types of projects that may be undertaken include replacement of automatic and overhead doors, lighting fixtures, escalators and elevators, HVAC/mechanical, telecommunications, security, roofing, and access systems.

Prior Funding History / Additional Information:
None.

Project Description/Justification:
Miscellaneous small projects are identified and need to be implemented in a timely manner to address safety issues, functionality, security regulations, ADA requirements, building efficiency, etc. It is in the Airport’s best interest to address all issues that present a safety risk to the public and reduce the chance of injury/lawsuits.

FAI Facilities is required to provide safe, reliable, and comfortable work environment for the public and airport employees. This includes minimizing excess cost and maximizing use of available resources. Updating and standardizing equipment promotes efficiency, simplifies preventive maintenance schedules, reduces training, reduces warehouse inventory, and reduces overall maintenance cost and energy consumption. Some projects may have a direct and short-term payback such as replacing lighting with more energy efficient fixtures and enhancing HVAC controls systems.
