Project Description/Justification:

The purpose of this program is to: Provide gap funding to increase homeownership and/or rental units throughout the state. This program is designed to help retain desirable professionals in high-cost areas. Since 2004, 293 new units of teacher, health professional, and public safety housing in rural Alaska have been placed into service and an additional 104 units are still in the construction phase.

The projected outcomes are:

- Increasing retention through localized housing developments;
- To add 20 units and rehabilitate 10 units for Teachers, Health Professionals, or Public Safety

officials housing in rural Alaska.

- Add 4 units for Village Public Safety Officers (VPSO);
- Increasing affordability for housing purchases by low- to moderate-income families;
- Lowering interest rates on AHFC mortgage programs to attract loan volume and generate net income.

Project Description/Justification:

The purpose of this program is to provide gap funding to increase homeownership and/or rental units throughout the state. This program is designed to help retain desirable professionals in high-cost areas.

The primary focus of this program has been to provide a source of grant funds that will help pay for the development of decent, safe, and affordable rental housing for teacher, health professionals, and public safety officials. This program has and will continue to generate additional loan volume for AHFC.

Attracting and maintaining a pool of qualified teachers, health professionals, and public safety officials in rural Alaska is a goal of the State of Alaska. In order to achieve this, housing must be available, affordable, and of a quality that encourages these professionals to locate and stay in rural settings.

These programs were developed to respond to the need for additional housing for professionals and their families by providing grants to fill the funding gap for various housing projects. Funding is made available through a competitive process for new construction, rehabilitation, and acquisition of housing.
