

Juneau - Industrial Boulevard Widening and Sidewalks**FY2016 Request:****\$3,000,000****Reference No:****60563****AP/AL:** Allocation**Project Type:** Construction**Category:** Transportation**Location:** Juneau (Mendenhall Valley)**House District:** Mendenhall Valley (HD 34)**Impact House District:** Juneau Areawide (HD 33-34)**Contact:** Jeff Ottesen**Estimated Project Dates:** 07/01/2015 - 06/30/2020 **Contact Phone:** (907)465-4070**Appropriation:** Surface Transportation Program**Brief Summary and Statement of Need:**

This project will bring Industrial Boulevard up to current standards. The road and shoulder widths will be improved to allow safe passage for vehicle and pedestrian traffic from Maier Drive to Glacier Highway. The project will add curb, gutter, and sidewalk on one side of the roadway from Glacier Highway to Maier Drive. Drainage, lighting, and other improvements will also be incorporated.

No prior funding history.

Project Description/Justification:

The existing roadway is in the advanced stages of deterioration and has been damaged by the 2008 installation of a new sanitary sewer collection system. The sewer project only made minor temporary repairs to the driving surface. Heavy traffic, combined with a weak sub-base and base condition on this street, is expected to accelerate deterioration of the existing pavement to the point of needing total replacement within a few years. Proposed changes would improve safety for use by pedestrians and bicycle riders compared to the existing road cross section with its deep ditches and non-existent shoulders. Storm drainage in the area has been a significant problem with respect to flooding of private properties, and has contributed to the accelerated failure of the road section.

This project will bring Industrial Boulevard up to current standards.

This project will be coordinated with the Juneau Glacier Highway and Industrial Boulevard Intersection Improvement project.
