**Project Description/Justification:**

Changes are required to the Time Accounting module within the department's Alaska Corrections Offender Management System and to the Victim Information Notification System to accommodate probation and parole incentive changes in the Omnibus Criminal Law and Procedures legislation (SB 91).

Probationers will receive earned compliance credit when the probationer successfully complies with all conditions of probation or parole allowing for early termination. Automatic Administrative Parole changes will allow offenders a limited category of automatic release without a hearing if the prisoner has: met the conditions of imprisonment, is not excluded by court order, has agreed to the conditions of parole, the victim does not request a hearing, and the prisoner has met the requirements of the case plan. These changes will require revisions to the inmate time accounting system.
