

AP/AL: Appropriation

Project Type: Life / Health / Safety

Category: Health/Human Services

Location: Statewide

House District: Statewide (HD 1-40)

Impact House District: Statewide (HD 1-40)

Contact: Les Campbell

Estimated Project Dates: 07/01/2016 - 06/30/2021

Contact Phone: (907)330-8356

Brief Summary and Statement of Need:

Funding will provide for a continuing program to serve populations with special housing needs. This program provides funds to Alaskan nonprofit service providers to increase housing opportunities for Alaska Mental Health Trust Authority (AMHTA) beneficiaries and other special needs populations throughout the state. The funds may be used for housing development and/or services designed to achieve long-term residential stability.

Project Description/Justification:

The purpose of this program is to provide funds for Alaskan nonprofit service providers and housing developers to increase housing opportunities to Alaska Mental Health Trust Authority (AMHTA) beneficiaries and other special needs populations throughout Alaska. This program has developed 251 units since FY2000.

The projected outcomes are to:

- Add 20 congregate housing units for people with mental illness or developmental disabilities;
- Reduce recidivism among clients spending time in institutions;

-
- Provide supportive housing, including assisted living, for people with mental, physical, or developmental disabilities, or multiple disorders; and
 - Provide transitional housing with support services for newly recovering alcoholics and addicts.

This program provides funds to Alaskan nonprofit service providers and housing developers to increase housing opportunities to AMHTA beneficiaries and other special needs populations in Alaska through pre-development and development activities. These funds will continue to assist in developing community-based supportive housing in conjunction with the Homeless Assistance Program.

In FY2015, the funding cycle focused on the renewal of 12 operating and support service grants and the development of new projects comprising 56 units (Anchorage, Juneau, Seward). A recent evaluation of six projects showed that the average daily expense was \$51 a day compared to \$142 in prison and over \$1,100 a day in the Alaska Psychiatric Institute (API).

The demand for special needs housing remains critical. The AMHTA has made housing one of its five focus areas for funding. The Alaska Independent Living Council, along with other special needs advocacy groups, has identified supportive housing as a top priority in their statewide planning efforts. The target populations consist of mental health beneficiaries and other special needs groups such as severely emotionally disturbed children and the homeless.

In order to optimize leveraging of these funds with other federal grant and tax credit programs and to expedite the release of funding to nonprofit housing developers, AHFC will administer these housing development funds. This will also administratively streamline housing development projects, which also intend to borrow money from AHFC. Typically, most special needs housing in Alaska is financed by AHFC.

Examples of special needs housing includes, but are not limited to:

- Congregate housing for people with mental illness or developmental disabilities;
- Supportive housing, including assisted living, for people with mental illness, developmental disabilities, or multiple disorders;
- Transitional housing with support services for newly recovering alcoholics and addicts; and
- Permanent or transitional housing support for the homeless and AMHTA beneficiaries.

The loss of these funds will mean increased expenditures by the state to house people who are inappropriately housed in API or the correctional system. The cost of providing community-based care is significantly lower than institutional care. Another negative effect is the loss of leveraging opportunities with other federal grant programs.
