Align Authority to Reallocate for Spending Plan												
	LIT	0.0	-359.0	-74.3	496.3	-63.0	0.0	0.0	0.0	0	0	0
The Tax Division is transferring personal services authorization to services in order to bring personal services within vacancy factor guidelines and for other adjustments needed to implement the current year spending plan such as reimbursable service agreements for core services with the Department of Law and Administration. With the utilization of teleconferencing, Tax Division is able to reduce travel authorization and move authorization to services where it is needed. Tax Division is also transferring commodities authorization to services and reducing computer replacement cycles and subscriptions in an effort to pay core services obligations.

1108 Stat Desig		330.0										

SB46 authorizes the Alaska Municipal Bond Bank Authority (Bond Bank) to consider making loans to regional health organizations. This will be the first time that the Bond Bank will have been authorized to lend money to an entity that is not a political subdivision of the State. The Bond Bank's participation in these loans would be expected to save significant amounts of interest expense for the regional health organizations. In the current market the benefit would be expected to be an interest rate reduction of 3-5 percent from existing financing alternatives. Assuming an interest rate reduction of just 3% results in nominal savings of approximately \$40 million from reduced interest expense on \$102.5 million of financing over a 20 year level debt service bond issue. To the extent bonds are issued based on this legislation, they will be moral obligations of the State of Alaska. In the event of a default by a regional health consortium that participates in this authorization the State of Alaska would be asked to provide for that debt service, and if the State failed to act on that request a loss of market access,

										PFT	PPT	NP
investor confidence and current credit rating would be expected. The bill creates a requirement that the Commissioner of The Department of Health and Social Services anticipates a state financial benefit and increase in the regional quality of care for a regional health organization loan request to be considered by the Bond Bank. This provision will require external state analysis of any proposed project and recognition of both financial and health care benefit to Alaska. The bill creates a new Bond Bank lending limit in the principal amount of not to exceed \$205 million in total loans to regional health consortiums, up to 49% funding of any single project as long as the balance of the project is fully funded, and no more than \$102.5 million of funding for any single project. This is a new potential lending program of the Bond Bank and it is important to limit the exposure of the State until there has been an opportunity to gain history and work through the inevitable details of the program. Bond Bank costs were derived by assuming that \$102.5 million of bonds would be issued based on this authorization for RHOs in FY 2016 followed by up to \$25 million per year in FY 2017 through 2021. The Bond Bank further assumes a JAA participation in a Bond Bank bond issue in FY 2016 of up to \$10 million. The Bond Bank anticipates incurring travel costs of up to \$15 thousand in FY 2016 and then up to \$5 thousand from 2017 through 2021. As the RHO program is developed the Board may meet in potential borrower communities to gain a better understanding of the nature of the project. There will also be a need to travel to meet with rating analysts, potential investors, and finance team members in the development of the RHO program. Professional services of up to \$330 thousand will be incurred in FY 2016 and up to \$100,005 from 2017 through 2021 as bond are issued. This amount includes an estimate of \$125,000 for a surety policy to meet the reserve requirement for each of the two anticipated bond issues. The additional services will include fees to bond counsel, independent registered municipal advisor, rating agencies, preliminary and final official statement production, and investor presentation forum costs. The residual service cost of \$2 thousand per year in 2018 to final maturity of bonds are trustee/paying agent fees for servicing the debt. All costs incurred associated with the issuance of the bonds will be charged to the regional health organizations and paid from the proceeds of the bond issues of the regional health organizations. If project financings are more rapid than anticipated or slower, the associated costs will flow to earlier or later years as they are 100% driven by bond issuance activity.

Align Authority to Comply with Vacancy Factor Guidelines												
LIT		0.0	315.0	0.0	-315.0	0.0	0.0	0.0	0.0	0	0	0
Increased personal services costs are associated with annual merit increases. This line item transfer moves authority to personal services, so Treasury Division can adhere to the vacancy factor guidelines. The remaining service authority is sufficient to cover anticipated expenses. Authorization in the services line is available due to the shift in assets under management and this has a direct impact on how the Treasury Division allocates their expenses based on its cost allocation plan. With more funds managed by the Alaska Retirement Management Board (ARMB), ARMB will incur a higher percentage of costs and Treasury's component costs will decrease from previous years.

A long-term nonpermanent Program Manager (range 21) position will be established to act as the administrative and managerial project assistant to the Department of Revenue for the Alaska Liquefied Natural Gas project. The Program Coordinator, under direction of the Deputy Commissioner, will coordinate major activities, operational components, and administrative responsibilities associated with the Alaska Liquefied Natural Gas Project. The position will be responsible for planning, developing, coordinating, and overseeing activities, functions, and major components, as well as budgetary and administrative responsibilities. Additionally, the position will assist with developing work plans for assigned projects, including analyzing and formulating project concepts, goals, schedules, cost estimates, critical path issues and financing requirements, in collaboration with interagency project teams and financing consultants.												
Financing, bankability and coordination of bonding efforts will ramp up significantly prior to FY2017 and is a critical piece of advancing the Alaska Liquefied Natural Gas Project to a Front End Engineering and Design (FEED) decision. Without coordination and integration of DOR work on project financing with the commercial teams, the project will not be able to move forward. This position is critical in support of project work towards the successful completion of financing negotiations, project bankability and bonding studies and efforts.												
Legal and Consulting Services for the Alaska Liquefied Natural Gas Project	IncOTI	1,700.0	0.0	0.0	1,700.0	0.0	0.0	0.0	0.0	0	0	0
1241 GF/LNG		1,700.0										

In order to proceed to the Front End Engineering Design (FEED) phase of the Alaska Liquefied Natural Gas Project (AKLNG Project), the Department of Revenue (DOR) anticipates that the State will have to issue bond debt to fund Alaska Gasline Development Corporation's participating interest share of the AKLNG Project FEED costs. Preparation for and implementation of a State Bond offering will require procurement of consultant and legal services by the Department of Revenue.

The following consultant, legal services and transaction costs anticipated include:

1. Bond feasibility consultant: to prepare the financial and economic disclosure reports to be included in the bond public offering memorandum.

Allocate Miscellaneous Reduction by Reducing Personal Services and Support Line Authority												
LIT		0.0	-771.4	0.0	-257.2	0.0	0.0	0.0	1,028.6	0	0	0
To adjust for the miscellaneous reduction to the Alaska Housing Finance Corporation (AHFC), the following actions are taken:												
Three full-time positions are deleted. Additionally, several other positions will lose steps or be reclassified for a total personal services reduction of \$771,400.												
The following PCNs were deleted:												
04-425X	Director, Construction	Range	E3									
04-331X	Officer, Planning	Range	22									
04-215X	Administrative Assistant III	Range	12									
The Construction department has been reorganized to a Facility Management Group and the director position is no longer necessary. As other staff turnover occurs, positions and departments are evaluated and downsized when appropriate. This is an on-going process.												
Consulting Services and Maintenance Contracts administered by AHFC's Information Systems Department were also reduced by \$257,200. The impacts of the software maintenance contract amendments being canceled should be minimal.

The Alaska Permanent Fund Corporation (APFC) will bring portions of the equities and absolute return portfolios in-house through the Quantitative Equities Program. This new program will benefit the State by developing the ability to achieve returns comparable to external managers at a lower cost and redirecting dollars to Alaskan jobs instead of spending outside of Alaska.

APFC's current capacity and staffing is not adequate to execute this program. Five (5) positions at a cost of \$885,000 are requested to staff this program. If the new staff positions are not funded, APFC will not be able to implement the Quantitative Equities Program, and the related decrement of \$3.2 million put forth in the Investment Management Fees budget unit will not be realized.

APFC is requesting the following staff to support this program:

Two (2) Senior Investment Officers – These investment professionals will research, develop and test quantitative strategies and determine the algorithms necessary to execute those strategies. The team will oversee the day-to-day management of the portfolio.

Two (2) Investment Analysts – One analyst will execute and monitor the trading activities of the portfolio. The second analyst will support risk management functions.

One (1) IT Specialist – The IT specialist will support both the Information Technology and data management needs of the Corporation. The quantitative equities program will require direct IT support in both data management and programming tasks.

The Alaska Permanent Fund Corporation (APFC) will add an additional Investment Analyst position to expand the special opportunities and alternative investments program. Until 2012, APFC relied exclusively on outside gatekeepers to make alternative and special opportunity investments on behalf of the Fund. Fees paid for external management of alternatives are typically some of the highest in the investment industry.

In FY2015, APFC committed \$1.6 billion to new Special Opportunities investments. APFC staff made two direct venture capital investments which will be managed in-house, saving typical management and carrying cost fees. In addition, APFC staff made three investments in private equity funds and successfully negotiated advantageous fee structures for each fund. As a result, the APFC expects to save at least \$220 million in fees due to the work of internal staff over the life of these five investments.

The special opportunities portfolio can comprise up to 20 percent of the Fund's assets. The investments in this portfolio, such as private equity, hedge funds, and venture capital are some of the most complex in the Fund. Not only does it take time to review and negotiate such deals, but once in place the

management of these investments creates on-going monitoring responsibilities for the two Special Opportunities investment staff.												
The requested analyst position will assist the two senior Special Opportunities investment officers with the more routine tasks of the portfolio, such as initial screening and due diligence, investment monitoring, and presentation and report preparation. This will allow the two senior officers to focus on sourcing, analyzing and executing on other new investment opportunities.

Alaska Statute 39.25.110(11)(B) exempts the Alaska Permanent Fund Corporation from the State Personnel Act. As a result, the Alaska Permanent Fund Board of Trustees is authorized to design and implement a salary management program that will attract and retain staff with the necessary skills and specialized knowledge to prudently invest and manage the Permanent Fund.												
The requested increment will provide the resources necessary to retain the skilled professionals critical to managing and growing the Alaska Permanent Fund.												
Merge APFC & APFC Investment Management Fees into a Single Appropriation

The Board of Trustees' strategic plan maximizes the Fund's value by directly managing investments in-house in areas where it is prudent to do so. In FY2017, the plan calls for bringing portions of the equities and absolute return portfolios in-house through the Quantitative Equities Program. The program benefits the State by developing the ability to achieve returns comparable to external managers at a lower cost and redirecting dollars to Alaskan jobs instead of spending those dollars outside the State on external management fees.

Alaska Permanent Fund Corporation's (APFC) current capacity and staffing are not adequate to execute this program. Additional positions will have to be funded in the FY2017 budget process to implement the program and achieve the expected external management fee savings. Five positions at a cost of \$885,000 are requested in the APFC Operations appropriation to staff and support the program.

If the new staff positions in the Alaska Permanent Fund Corporation Operations budget request are not funded, APFC will not be able to implement the Quantitative Equities Program, and this cost savings will not be realized.
